Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **FEMA-4482-DR-CA**

On 03/22/20, President Trump approved Major Declaration FEMA-4482-DR-CA (DR-4482) for the COVID-19 Pandemic.

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 12/05/20 at 1100 hours:

WEATHER KEY POINTS

12/05/20 - 12/11/20

Saturday

- Marginally critical fire weather conditions will continue across the coastal mountains of LA and Ventura Counties Saturday. Any new fires could spread rapidly with these conditions.
- Rain is expected across NW CA, otherwise dry conditions are expected for the rest of the state.

Sunday-Tuesday

- Elevated fire weather concerns continue statewide Sunday before another moderate Santa Ana wind event develops Monday and Tuesday
 - Critical fire weather conditions are increasingly likely Monday and Tuesday across southwest CA
 - The pattern causing the Santa Ana wind event on Monday and Tuesday will also cause increased offshore winds in the Bay Area mountains Sunday night and Monday, and in the Sierra Nevada Monday through Tuesday.

Wednesday-Friday

- Elevated fire weather conditions continue statewide with no significant rain in sight.
